FOR IMMEDIATE RELEASE

CALTRANS CONTINUES IMPLOSION OF THE ORIGINAL BAY BRIDGE PIERS

What? Caltrans will continue this weekend with a triple pier implosion for the original Bay Bridge on Saturday, October 28. The implosion of Piers E14, E15, and E16 is the fifth of six scheduled events this fall. The last scheduled implosion window will be the weekend of November 12th. Caltrans has combined multiple piers on certain demolition dates, allowing the demolition work to be completed a year ahead of schedule, saving taxpayers nearly \$10 million.

When? Saturday, October 28, 2017. The window time for the implosion is between 7:00AM—9:00AM. Suggested arrival time, 6:30AM.

Where? Press access will be provided at the Oakland shoreline of the Old Bay Bridge, end of Burma Road, Oakland. Please follow the signs leading to the end of Burma Road.

A live stream will allow for public viewing during the operation. We encourage the public to use this method for observing the operation that day. Watch it live from the following links:
<http://www.dot.ca.gov/oldbaybridgedemolition>, follow #BayBridgeDemo on Twitter, Instagram, and Facebook.
